Bothell Public Works Department makes no recommendations regarding private contractors.

The companies listed above perform drainage system maintenance services. This is not an all-inclusive list of contractors who provide this type of service and it is for information purposes only. **The City of Bothell has no affiliation with the companies on the list and the City does not guarantee or otherwise endorse any of the listed companies.**

When requesting drainage system maintenance from a contractor, please provide the contractor a copy of the attached maintenance order. The contractors are aware that they can contact the inspector if they require any clarification of the maintenance order. After the maintenance work has been completed please notify the City of Bothell.

A note on working with drainage system maintenance contractors: Before hiring a contractor, it's prudent to obtain at least three bids. Drainage system maintenance is a competitive field and you'll usually save money by shopping around. Make sure you get your money's worth. Most firms have substantial callout fees and depending on the size of your system, having your entire system cleaned may not cost any more than having only one or two structures cleaned.

If you are a vendor, please note that this list gets updated once a year. If you would like your business added to this list, please renew or apply for a business license by 6/30/2021 by calling the City of Bothell Community Development department at 425-806-6400 or by visiting our website <http://www.bothellwa.gov/152/Business>.
