Development review billing fees provide for reimbursement of municipal employee time for project review, inspections, meetings, consultant peer review costs, copying expenses and other related costs for land use permits, new commercial or multi-family buildings, grading, right-of-way and first-time tenant improvement projects. Billing is not used for single family residential building permits, unless there are permits other than building, plumbing or mechanical associated with the project. A 5% Technology Fee is added to all review fees.

The applicant shall be invoiced for actual costs on a monthly basis. Payment is due to the City upon demand.

Billing is used for all phases of review for:
